Pepperoni & Sausage	15

Due to the ongoing staff shortage we apologize for the simplicity of our menu. We are doing everything we can to recruit new staff and when we are able- you'll see this menu grow into the menu Prairie Bluff wants and the menu you deserve! Also, in a totally unrelated matter, we have applications available in the proshop. And now a message from our friends at the Will County Health Department.

Eating raw or undercooked meat, poultry, eggs or seafood poses a health risk to everyone but especially to the elderly, children under 4, pregnant women, and other highly susceptible individuals with compromised immune systems.
