

# Learning Step Preschool at the Dellwood Park Community Center

Our primary goal is to provide your child with a stimulating environment in which they can grow. This program will give your child a variety of experiences, which will promote social, emotional, intellectual and motor skills. We strive to give each child a positive feeling of self-worth. We believe in and value each child's uniqueness. The classroom and the many planned activities are designed to provide an atmosphere where each child can freely express themselves. The children are encouraged to communicate, explore, discover and learn through creative play! Visit our website:
